REASON FOR THIS AWARD

Alana, currently a confirmation student, has been a madricha (teen assistant) in our religious school for several years. She is responsible, dedicated and dependable, yet most importantly an excellent model for our younger students. Alana is proud of her Judaism and a proud camp Ramahnik. Last year, Alana was chosen to participate in a teen assistant program through Jewish Learning venture to further her skills as a teen assistant. She demonstrates those skills each session when she is in the 3rd grade classroom. The teacher she works with continually praises Alana's skills and enjoys working with her. Regardless of what she is asked to do for the students, teacher, classroom or school, Alana always does so with a smile.
